

Ascend™ Cervical Collar Family

Introducing Breg's new spine braces

The Ascend family of cervical collars achieves a similar level of comfort and support as the Pinnacle line, in a multi-sized option. Patients benefit from highly breathable anti-microbial materials and uniquely designed structural support that builds confidence during recovery. Providers benefit from a wide range of sizing options making the Ascend line of products the elevated choice for patients who want to build confidence during recovery.

Common Examples of Use for Cervical Collars

- Post-surgical Stabilization
- Cervical Disc Syndrome
- Cervical Stenosis
- Fracture Management
- Sprains / Strains
- Decompressive Procedures
- Cervicogenic Headaches
- Radiculopathy
- Trauma / Whiplash

Ascend Cervical Collars

Ascend collars come in four adult sizes and five pediatric sizes to accommodate a wide range of patients and anatomical differences.

Features of our Ascend cervical collars include:

Mix and match front and back panels separately to accommodate unique anatomies

Specially shaped peripheral support tabs provide increased surface contact area with flexible zones

Antimicrobial cotton-hemp blend liners to help prevent skin irritation

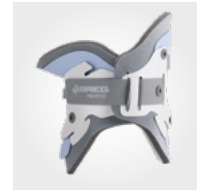

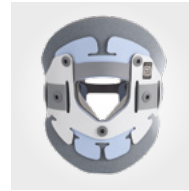

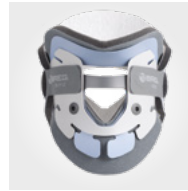

Ultra-breathable foam padding to reduce perspiration

An extra set of pads to allow for continuity of care during pad cleaning
